*Mr Rantoul and the Essex Register.*—It is worthy of remark, that, while for many years past the Essex Register has constantly loaded its columns with the vilest calumny against Mr Rantoul, of Gloucester, this gentleman's influence and popularity have been constantly increasing in that very vicinity where the Register is widely circulated and read. We believe a pretty good sized volume might be compiled from past numbers of the Register, which are devoted exclusively to the assailing of Mr Rantoul's reputation by low ridicule on the one hand and aspersions on the other. The truth is that the people in the neighborhood of Salem and Gloucester know that all the calumnious trash which has appeared in the Register against Mr Rantoul, is the result of mere personal envy and animosity on the part of its conductors. Hence they regard it all as nothing more than the idle ravings of a man in an angry passion.

A paragraph is going the rounds of the Whig papers, stating that Mr Madison, during the last war, seriously thought of investing Henry Clay, who was at that time Speaker of the House, with a high military command! The friends of Mr C. seem conscious that some how or other he has missed his destiny, and they are puzzled to know what he was made for. Of one thing they may rest certain—he never was born to be President.

The Evansville (Ohio) Journal states that Mr Van Buren is the principal stockholder in a Land Company with twenty millions capital! If he had reduced the capital to one-twentieth the amount, his story would have stood a better chance of being believed. Mr Van Buren himself says, in his late letter to Sherrod Williams, that he does not own stock in any incorporated company whatever.

*Whig Decency.*—A meeting was called at Bangor the other day to take into consideration certain financial matters, in nowise connected with politics, when the intelligent editor of the *Advertiser*, J. W. Frost, Esq., on commencing a speech, was hissed by a couple of Whigs—but they were soon silenced by the general applause of the assembly, and Mr. T. concluded his remarks amid loud tokens of approbation.

The Bangor Whig bumps its nose on the floor in bowing apologies to Mr Webster for substituting Harrison's name for W's. Before this movement of the Whig, Webster, probably, stood a better chance of receiving the Electoral vote of Maine than Harrison, but now we think *their prospects of success are about equal*.

The editor of the *Atlas* is quite exclusive in his dealings with those whom he is pleased to consider as *quasi* whigs. He has been from the first ranked by a large portion of his own party as belonging to that respectable class—compliment which they have paid to his understanding at the expense of his sincerity.

The editor of the *U. S. Gazette* welcomes the accession of a renegade democratic editor to the whig ranks, with the remark, that "his aid will be felt, though his sacrifices may neither be understood nor rewarded." Quite a hopeful prospect.

*De Tocqueville*, the famous French writer upon America, says—

"If I am asked in what class I should look for an American aristocracy, I should say without hesitation, not among the rich, who have no common tie to bind them together. **THE AMERICAN ARISTOCRACY IS THE BAR AND THE BENCH.** The more we reflect on what we see in the United States, the more we feel persuaded that the corps of lawyers in that country forms the most powerful, and we may say the only check to the democracy. This aristocratic character which is prevalent among lawyers, is more decided in those of the United States and England, than in those of any other country."

*Murdock* is rapidly gaining favor with the theatrical public. If he will check his exuberance of feeling, and keep clear of the ranting abyss which has engulfed so many before him, he may become one of the first actors on the stage. Mr Hield labors too hard; he thinks, apparently, too much of his manner, and not enough of the sense of the text—his points are stretched until they break; quicker action and enunciation—more natural freedom and less *stagy* (if we may coin a word) would, in our opinion, improve his style very much. Mrs Hield possesses the advantage of a queen-like figure and a strong sonorous voice; the features of her face are rather small, and deprive her of some of the power of expression which more prominent ones would give—yet she is a lady of rare talents and cannot fail of becoming a popular actress in the new world.

Mr and Mrs Hield make their second appearance this evening in the popular play of the *Stranger*; after which the celebrated new drama of the "Two Murderers," will be produced. By this piece and the "Golden Farmer," the Manager of the little Franklin, in New York, it is said, has cleared \$10,000.

*Mr Eaton's Benefit* this evening at the National will probably be, what it certainly should be, a **BUMPER**. He is a Bostonian, and the best actor the city has produced—an industrious, intelligent, and worthy gentleman, and deserving the most liberal encouragement from his fellow townsmen.

*Celeste* is to receive \$1000 for playing three nights at the National Theatre, New York.

A Society exists in Pennsylvania, called "the Beet Sugar Society." Mr James Pfeiffer has recently visited France as Agent for this Society, for the purpose of obtaining information respecting the culture of the Beet Root, and the manufacture of sugar therefrom in that country.

At the last meeting of the American Institute, it was resolved that "man has a two-fold nature, consisting of soul and body." We like Gov. Everett's doctrine better. He calls the soul "the ultimate principle of man's nature."

*Comfortable Quarters.*—A family in Baltimore, who returned to their home after making a summer excursion, found that their house had been occupied during their absence by a gang of vagabonds, who had drunk up their wine and cordials, eaten their preserves, and slept in their beds, and made themselves free and easy with every thing about house.

An old money-lender recently died in Paris, leaving 1,700,000 francs, which, through the failure of heirs, went as an escheat to the public treasury.

The English bulls, imported a few days since from Liverpool, were sold at auction at Hoboken, on Saturday afternoon. One of them brought \$710, and the other \$525.

A French paper states that Prince Talleyrand becomes weaker and weaker, and, finding his end approaching, is employed in arranging his affairs; and that he is at times so much depressed as to shed tears.

#### LATER FROM EUROPE.

By the packet ship *Gladiator*, Captain Britton, at New York, we have London date to Monday, August 1st.

The Times of August 1st says that on the previous evening an express arrived from Frankfort announcing the death of Mr Rothschild. It was previously known that Mr Rothschild, of London, who went to Frankfort to attend the wedding of his son, was detained there by extreme illness. He was the chief manager in the great Banking partnership of the Rothschilds, though not the oldest of them.

The French have received news from Oran that Gen. Baghlan has obtained a signal victory over Abd-el-Kader, between Tremeen and Tafna.

The steamboat *Tigris*, one of the expedition on the Euphrates, capsized and went to the bottom in a tornado. Twenty of the crew were drowned, fifteen of them Englishmen. Col. Chesney saved himself by swimming.

The cholera was making fearful progress in Italy. At Verona the deaths were forty *per diem*. Business was almost entirely at a stand.

The Russian government refuses to pay its stipulated sum of the last instalment of the loan to Greece, but Lord Palmerston proposes that England and France shall nevertheless pay theirs.

**LIVERPOOL COTTON MARKET.** for the week ending July 29.—The demand has been on a contracted scale during the past week, averaging per day 2500 bags. Middling and low quality of American have rec'dd 3d lb from last week's prices. No demand to pay more than 3d lb for other descriptions. The effect of the inundations of cotton in the United States is looked for with considerable interest, and on this will depend the turn which prices will take. The sales are 15,590 bags; 1000 American, 550 Surata, and 30 Bengal for export. Sold this week 15,590 bags—310 Upland at 3d a lb; 3140 Orleans at 3d a 15d; 3750 Alabama at 3d a 15d; 270 Sea Island at 3d a 15d; 120 stained so at 3d a 2d.

July 31.—There is no alteration in the prices of Cotton today, and the week has closed without any great extent of business. The sales to day are about 2000 bags, chiefly American.

#### FROM FRANCE.

By the ship *Charles Carroll*, Capt. Lee, from Havre, Paris papers to the evening of the 23d of July inclusive, being one day later than our previous advices, have been received at New York.

The *Moniteur* of the 23d states that the ministers had an interview with the King at Neuilly the day previous, at which it was decided not to have a review on the 20th.

It is asserted in the *Quotidienne*, on undoubted authority, that the new foreign legion in garrison at Pan, and amounting to 700 men, was about to enter Spain. The editor adds, that these troops would only be, in all probability, the advance guard of a more considerable force which the French Government intended to send to the relief of the *Christinos*.

The *Journal du Commerce* pronounces all the news from Spain decidedly unfavorable to the Queen's cause.

A duel was fought on the 22d near Paris, between M. Armand Carvel, the well known editor of the *National*, and M. E. de Girardin, editor of the *Bon Sens*. The former was shot in the right side, and was in a very critical situation. The latter was wounded in the thigh.

*Intelligence from Western Africa* up to the 30th of June has been received. Accounts from the Sherbro country represent it in most calamitous state, by reason of the native war, and the invasion of the Timanees, a numerous tribe, living north and east of Sierra Leone. Many of the towns and villages were deserted by the inhabitants. The slave trade was carried on to a considerable extent on the coast of the Sherbro country.

The small pox was creating much alarm at Sierra Leone.

The accounts from Bassa Cove are highly gratifying. The settlers were busy clearing and planting and building, and the health of the colony was excellent. A new Baptist meeting house had been erected and opened for worship.

Adjournd to Monday next, 4 o'clock, P. M.

*Further extension of the law of Libel.*—We see by the Post, that an objection was raised in the Police Court against Mr W. J. Snelling of incompetency to be a witness, on the ground that he has been convicted before Judge Thacher of publishing a libel. We trust the Police Justices will not sanction this monstrous extension of Judge Law. Judge Thacher, very unadvisedly and we think illegally, once removed Mr Snelling from being a juror, on the ground of his having been convicted of a libel. It is now attempted to extend the doctrine to evidence, so as in fact to disbar a witness, on the ground that he has been convicted before Judge Thacher of publishing a libel. Judge Thacher, very unadvisedly and we think illegally, once removed Mr Snelling from being a juror, on the ground of his having been convicted of a libel. It is now attempted to extend the doctrine to evidence, so as in fact to disbar a witness, on the ground that he has been convicted before Judge Thacher of publishing a libel. We trust the Police Justices will not sanction this monstrous extension of Judge Law. ## EMOVAL OF FOSTER'S COMMERCIAL PENMANSHIP, COMMERCIAL ARITHMETIC & DOUBLE ENTRY BOOKKEEPING.

are taught on an advanced plan by which a competent  
knowledge of these branches may be attained in ONE-THIRD  
of the time usually devoted to that purpose.

## FOSTER'S PRACTICAL PENMANSHIP.

Is so simple and effective as to eradicate the most confirmed  
sew, and to substitute in its place a neat, rapid style of  
writing, adapted to the practical and every day purposes of  
life.

BOOK-KEEPING, BY SINGLE AND DOUBLE ENTRY  
is taught in a practical manner—the learner is exercised in  
making original entries in the books and correct forms  
in drawing out necessary account sales—recording and accept-  
ing of bills of exchange by simple and compound equation, &c.

Each pupil is taught individually, and not by general ex-  
planations which one out of ten might perhaps comprehend  
at the expense of the teacher, whilst those of pupils are freely an-  
swered and illustrated by cases in point.

The learner opens, posts and balances two complete sets of  
books, in which are contained all transactions which can pos-  
sibly occur in the ordinary course of business, and is thus  
qualified to be a Book-keeper in the most extensive mer-  
chandise.

After the pupil has been made to understand the immutable  
principles on which the art is founded, the different systems  
on which books are kept in the city, (including Mr. Hart's  
books) are fully illustrated and explained.

Projections may be had as above. <sup>1st</sup> <sup>87</sup>

DR. BRANDRETH,  
WANTS NO COLLEGE, NO INSTITUTION, NO MONOPOLY, NO CHARTER—HE BEING QUITE SATISFIED TO REST ON THE PATRONAGE OF THE PUBLIC FOR THE SUCCESS OF HIS GRANDFATHER'S VEGETABLE UNIVERSAL PILLS—ESTABLISHED IN ENGLAND.

In 1754.

Science should contribute to the Comfort, Health and Happiness of Mankind.

ON the 13th of May, 1836, these now truly celebrated Pills were first made known in the United States, although in Europe they had been previously before the public nearly a century. The American public naturally viewed them with suspicion, but as on trial they were found what they professed, it was soon dispensed by the greatest confidence. They have since been received, too, under very diverse circumstances, having to contend with the base slanders of malignant persons, who have impeached them in a state of error, to regard the functions of their office. Dr. Brandreth would impress on his friends and the public generally, that however different may be the action of the pills at different times, that such different action arises not from any alteration in the pills, but from the state of the body they should always be perceived in, until the action is uniform—for they are an efficient assistant of nature, having the same kind of action on the human body that storms and hurricanes have been soundly beaten, and the sea, in other words, every organ has become restored to a state of purity consistent with its functions—and although there are cases whose bodies are in such a state of excretion, that the pills are not generally received, yet they are perfectly good, and are received by many persons who have commenced with them under the most trying circumstances of bodily affliction, when every other means and medicine has proved altogether unavailing, have soon restored to health and happiness from their use—and the consequence is, they are now recommended by thousands of persons whom they have cured of Consumption, Influenza, Indigestion, Dyspepsia, Headache, Pains, and a sense of fulness in the back part of the head, usually the symptoms of Apepsia, Liver Complaints, Fever and Ague, Bilious Complaints, Yellow and Consumption. For example, Asthma, Gout, Rheumatism, Nervous Diseases, Liver Complaint, Plethora, Inward Weakness, Depression of the Spleen, Ruptures, Inflammation, Severe Eyes, Fits, Palsy, Dropsey, Small Pox, Measles, Croup, Coughs, Whooping Cough, Quinsy, Croup, or St Anthony's Fire, Salt Rheum, White Swellings, Ulcers, some of 30 years standing, Cancers, Tumors, Swelled Feet and Legs, Piles, Costiveness, Constipation, the Skin, Brightness of the Face, Female Complaints, of every kind, and the like, and many other diseases.

9000 testimonials have been received from individuals of the highest respectability. Call at Dr. B's store and read the original letters, all proving the extraordinary power of Brandreth's Pills in removing diseases of the most opposite character from the constitution on. They in fact prove, by the cures they make, that there is no necessity for any other medicine.

Although Dr. B. has enumerated by name the above diseases, he is nevertheless of opinion with his grandfather, the celebrated Dr. Wm. Brandreth, that there are only ONE HUNDRED and FORTY-THREE of the三百 pills, by impediment of circumstances, bring on inflammation and consequent stricture in the organ or part where such incompatibility of the pills is.
